

# Heather Rose In Clover

NEW SINGLE 2.26.21 WELCOME TO NEW ENGLAND

cover art by Annie Hoffman / Die Happy Society

## the band

Heather Rose In Clover use the sharp end of their broken hearts to sculpt 90's rock into polished, alterna-post-punk-pop. Rhode Island natives Lisa Middleton, Heather Rose, and Greg Hall combine their talents to create a fresh mix of rich musical styles while ignoring genre boundaries, but never misplacing their rock n' roll roots. Together they have built a new musical structure atop the pop rock foundation Heather Rose solidified throughout her extensive music career! HRIC are a dynamic trio who get their indie sound from the alternative rock of the 90's. Sometimes Grunge. Sometimes Pop. Sometimes both and then some. These Providence, RI rockers will give you all the feels, including those felt during a bad breakup or after watching a sappy made-for-tv movie.

## the song

Welcome To New England is an explosive, high energy anthem for cold-temp dwellers trying to survive the winter season with their sanity intact. This indie rock postcard delivers on a promise New Englanders have come to accept. Just when you're about to throw in the shovel and ditch this frozen popsicle stand, the season will change, the heat will rise and you'll forget what got your thermal underwear in a bunch!

Heather Rose In Clover's new single will have you dancing in your snow boots after being lured in with soaring vocals and kept there with melodic lead bass, catchy riffs, and a driving backbeat. Welcome To New England's clever lyrics offer a candid look into the daily trials of what it takes to brave the storm by lending sympathy to those facing the unplowed road ahead.

Recorded at Zippah Recording by Annie Hoffman (Weakened Friends) and Brian Charles (The Sheila Divine)  
Distributed by Pitch & Prose ([pitchandprose.com](http://pitchandprose.com))

Welcome to New England will be available on all streaming services and Bandcamp on February 26, 2021.
